# Frenil Patel

Data Analyst • Valsad,Gujarat • 8141507082

frenilpatelop8141@gmail.com • https://github.com/FrenilPatel11

Hello, I am Patel Frenil, a data enthusiast holding a bachelor's degree in computer science and engineering, along with strong proficiency in data analysis tools and visualization.With a strong sense of evaluating issue statements and providing data-driven solutions.An excellent team player who is also a quick learner who is keen to explore and pick up new skills and technologie.

## WORK EXPERIENCE:

**It Idol Technologies**, Valsad

*React Native Developer (Intern)*                                            01/2023-05/2023

At the start, I was given some small tasks related to react native, afterwords I started working on a project called CreativeAdmaker which is an ads template-making application. I have to design all front-end parts for the application. Had also chance to do work on other live projects as to change the front-end requirements as per the clients.

## EDUCATION:

Bachelor of Engineering in Computer Science, (Nov-2023)
Laxmi Institute of Technology, Sarigam, Valsad
Final Grade: 8.63 CGPA

## PROJECTS:

**PIZZA STORE SALES ANALYSIS** (Power Bi) **:**

It is a portfolio project created on Power Bi desktop. Created Dashboard using different charts to analyze the overall sales value and customer satisfaction to each category or sub-category of pizza within the store and also to analyse which specific parameters are affected to the sales of the store by using power bi.

**IPL 2008-202 ANALYSIS** (Advance Excel) **:**

To Enhance interaction between viewers and data this portfolio project build on Excel.It provides the main insights regarding to the ipl on the dashboard like most runs,most wickets,Mvp player,winning teams,etc for that respective year of the ipl

**ZOMATO DATA ANALYSIS** (Sql & Power Bi) **:**

This project define the different insights like best seller,worst seller,customer ratings,overall profits,area wise sales with the help of Sql and Power bi.With Sql I created some KPIs that are mainly needed and added them by creating interactive report on Power bi.
